

As you know, the Clinical School Centenary Program has provided many opportunities for our medical alumni to reconnect with each other and participate in different activities. One of the most popular activities has been the Centenary Symposium Topics.

The following dates and topics have now been secured and you wouldn't want to miss out. The host of each symposia nominates the topic and engages notable individuals to address the subjects at hand, providing speakers of note from within and beyond St Vincent's.

All Symposiums are held from 5.30 to 7.30pm in the Michael Chamberlin Theatre at St Vincent's Hospital. Attendance is free. After the symposia, enjoy refreshments, fellowship and discourse.
